# Custom Cupolas

In architecture, a cupola is a relatively small, mostly dome-like, structure on top of a building. Originally in the early 17th century it was designed to provide a lookout and later to admit light and air. The cupola is a development made during the Renaissance of the oculus, it is an ancient device found in Roman architecture. All Raven Metal Custom work is hand-made on Vancouver Island. Raven Metal Products produce custom cupolas in a variety of styles and materials. There are six basic designs in this catalogue, if you don't see one that you like, let us know what you are looking for. We can make it for you..... exactly as you envision your cupola. Come by and talk about your project with one of our friendly estimators to get you on the path to owning your custom cupola.
